

Comfort Seat Heaters™

Perfect Comfort All of the Time!

Special Products GmbH, a division of W.E.T. Group, brings to you Comfort Seat Heaters, a superior seat heating system developed with our unique Carbotex material, and distributed exclusively in North America by Katzkin Leather, Inc. It provides flexible and simple installation to any vehicle application. Comfort Seat Heaters provide the most effective and reliable seat heating capabilities in the industry because they utilize Carbotex, a leading edge, carbon-fibre based technology that offers even heat distribution, versatility in installation and a superior overall comfort level to the finished seat. They are available in single and dual kit options and include all necessary wire harnesses.

- Supported by highly qualified engineering and dedicated customer service teams
- Ultimate, reliable & even heat distribution
- Unique Carbotex® material provides flexible installation
- Tested to OEM standards

Katzkin.
